

First Floor Changes; More to Come

This is the second of a series of three articles written on the recent and current changes at Lowrey School.

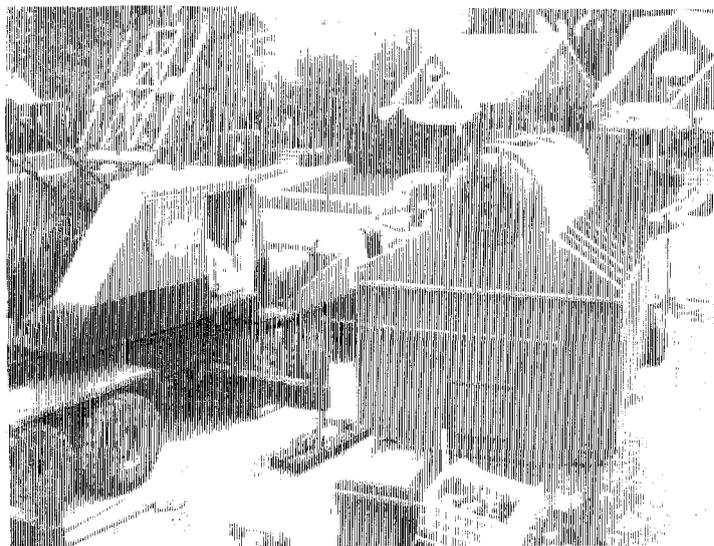

In this issue we will point out some of the main changes on the first floor.

The boy's locker room has undergone an almost complete change. The wall which divided the upstairs locker room from the equipment room has been torn down and space is being used for lockers. New lockers have already been installed downstairs plus new tile in the shower room and locker room floors. Walls have been torn down and new ones put up to give the locker and shower rooms a different system of walkways.

Across the hall and a few feet towards the main office is the kindergarten room. This room has also undergone many changes. In the past there had been two rooms and a coat room. The coat room has been removed and now the rooms are much larger. The cupboards and fireplace have been removed because they were fire hazards. The radiators have been replaced by a new heating system. Many other features have been installed such as new tile on the floor, new furniture and moveable cupboards.

The main office has been completely remodeled. The remodeling process includes a new switchboard, new clock, new windows, and everything has been repainted. Students are asked to come to the window in the hall when they wish to obtain information.

The Little Theatre is getting quite a treat also. There is going to be a new balcony which will increase the total capacity of seating persons by 140. It will have an acoustically designed ceiling with recessed lighting fixtures. There will also be new pre-focused spotlights. All new light controls will be installed. Behind the stage there will be a completely new makeup and storage room. And last of all the new seats will be put in. Mr. Meredith said that the theatre should be finished by December 1, and the first activity will be the January graduation.

Further down the hall where the shops are located, many changes have taken place.

The machine shop has been converted into the electronics room. A new lighting system has been put in and Mr. Littrell is waiting for the new equipment to be installed.

The Auto Shop has been enlarged to make two car stalls. One of these car stalls is equipped with the grease rack and hoist while the other has a car wash. The shop has been equipped with a new exhaust system and a water cooling system. When the shop is finished it will be one of the most beautiful and useful shops in the school.

Three of our counselors are getting new offices. Mr. Koster, Mr. Rigotti, and Mr. McBride will share a large room with three separate offices and a waiting room. They are located across from room 122, and you have been invited by Mr. Koster to come and visit.

Replacing the old counselors' room is a new elementary braille room. The room has been completely remodeled and has new furniture. They are now awaiting the arrival of new bookshelves and bulletin boards.

**DON'T FORGET
HOMECOMING**

Future Homemakers Contest

Attention all senior girls. "The Ninth Annual Search for the American Homemaker of Tomorrow", is now underway. Those girls who wish to enroll see Mrs. Dotson before October 29.

In addition to cooking, sewing, and attitude the test will also cover family relationships, and spiritual and moral values.

The maximum time to complete the test is fifty minutes.

The top girl in our school will receive a Betty Crocker Homemaker of Tomorrow pin. Her next step will be to go on to state and national competition.

The first prize finalist for state competition will receive a \$1500 scholarship to any college. The national finalist will receive a \$5000 scholarship to the college of her choice.

This contest gives senior girls a deeper appreciation of their role as Homemakers whether or not they go on to college.

Mrs. Dotson's remark was "this test is a help to the girls."

New Teacher Welcomed

Lowrey has a new social studies teacher, Mr. Colovas (pronounced Co lo vas), who is replacing Mr. McKae, who recently took an unexpected leave of absence.

Mr. Colovas, a native of Highland Park, came to us from Fordson High School, where he taught two years of Social Studies, one and a half years of Physical Education, and coached the baseball team to the Border Cities League Championship.

He attended three colleges: Wayne State, Baylor, and the University of Houston, and majored in Health and Physical Education.

Upon further inquiry, we found that Mr. Colovas previously served three years in the Air Force. He is now married and has three children; one boy, and two girls. Mr. Colovas enjoys good foods of any kind, and also photography which is his hobby. Traveling is included among his future plans.

We would like to take this opportunity to welcome Mr. Colovas to Lowrey, in hopes that his stay with us will prove to be both pleasant and profitable.

New Furnace Installed

A new gas furnace was installed in the basement on Wednesday, September 26, 1962. This is a Wicks Boiler, installed by American Standard Plumbing Co. It will take the place of the two old boilers which have been used for many years. The school will keep the old boilers in case the gas supply should fail. This new furnace is designed to heat the whole school.

The furnace weighs 20 tons, and cost \$20,000. A rig (crane) which costs \$101,000 and weighs 55 tons was used to lower the furnace through the roof.

A minor delay occurred when the new furnace got stuck between the wall and the chimney flew. After a brief discussion, they used an oxygen-gas torch to cut away part of the brace used to hold the furnace. After this, it was lowered into the basement without further mishap. The lowering of this furnace was a great engineering feat.

Congratulations!

The Lowrey Light would like to congratulate the students and faculty on the sale of Activity Books. Activity Book sales averaged 83% for the entire high school, the highest percentage ever reached at Lowrey. Six homerooms reached 100%. This is a fine indication that student interest in school activities is improving. Let's keep up the good work!

Cafeteria Conduct Needs Improvement

Student conduct in the cafeteria at lunch time this semester has not been very good. Many students are the guilty ones without actually realizing it.

What are their crimes?

1. They leave their paper bags, milk cartons and straws on the tables.
2. Some find it very convenient to throw their papers on the floor.
3. Some throw food at each other and think its a blast.
4. A few students find it very amusing to squirt one another with their milk.

Do you act like this in your own homes? Are these things considered as good manners? Any sensible person knows they're not. We think everyone has manners but sometimes they just leave them at home and forget to bring them to school.

We, the students of Lowrey, want people to think we have a well-mannered student body. We think Mr. Dzovigian had some important timely words to say on this subject. He said, "The teachers and school administration are first to recognize the various problems that exist in the school cafe. However, it is necessary for all of us to be even more cautious, courteous, and patient with the problems that exist. It can't last forever, and when the cafeteria is completed we will have one of the best."

So come on people let's get with it and really prove we have good manners and that we know how to respect the rights of others.

Chorus Plans Are Under Way

The Lowrey High School Chorus has a busy schedule. Currently they are planning a Veterans' day program. The performance will take place in front of the school on November 9, and will be centered around the Flag Pole. The Chorus consists of 78 members who will be singing America, God of Our Fathers, and Mighty Land.

Mr. Coedy, the chorus director, is also making plans for the Christmas Program. Memorizing of approximately fifteen songs will soon begin.

Mr. Coedy would like to announce that he needs a piano accompanist. If anyone is interested will they please contact Mr. Coedy in Room 200.

"Love in marriage should be the accomplishment of a beautiful dream and not, as it too often is, the end.

Karr

"Love sought is good, but given unsought is better."

Shakespeare

Halloween—Its Origin and Custom

The origin of Halloween has baffled many people. Here is how this unusual holiday originated.

Halloween, in spite of the fact that it takes its name from a Christian festival (All Saints' Day or All Hallows), comes from pagan times and has never taken on a Christian significance.

The persistent Halloween custom of "dressing up" and wearing masks was originated by the early Celtic Druids of Northern Britain. By waving burning wisps of plaited straw aloft on pitchforks, people tried to frighten off demons and witches, but just in case this didn't work, they also put on grotesque and terrifying costumes. For if you dressed in a horrible enough fashion and went trooping around with spirits all night, they would think you were one of them, and do you no harm.

Other northern peoples in the Germanic and Scandinavian countries also lived in terror of "the raging rout" as they called evil spirits whom they believed to be led by the great god Odin. Halloween weather was of the greatest importance to these people, for the day was prophetic; if the rout came in on a soft wind, the next year would be easy and good; but if the rout came raging in, the year would be full of bitter woe and warfare.

Among the Celts there was a custom—which still continues—to try and learn what the future holds, especially in matrimonial matters. Halloween is the time to find out whom you will marry. If you can't at least get a hint, you have no Celtic blood at all.

For instance, a girl puts three nuts on a grate. She names one nut for herself and two for possible husbands. He who cracks or jumps will be unfaithful, but he who starts to burn will be a good mate. If the girl's nut and one of the others burn together, then the wedding is certain.

For boys, the "Three Luggies" is practiced. Take three dishes, one with clean water; one with dirty water, and one empty. The boy is blindfolded, and dips his fingers into the first dish he feels. Clean water means he will marry a maiden; dirty water a widow, and he will stay single if the dish is empty.

If you would like to have some fun guessing a future mate, these games are great.

Futorian Sale Near

The Futorian Staff is planning on having an annual sale about the middle or end of this month, according to Mr. Falvo, the sponsor.

Dr. Speaks On Quackery

Quackery and fads in medicine was the subject of a speech by Dr. Oliver Field, Director of the Department of Investigation of the American Medical Association, in the Oakwood Hospital Auditorium on Monday, September 24.

A quack is a pretender. At the turn of the century there were 180 medical schools in our country, most of which operated for profit. Now there are 84 accredited medical schools. In 1906, the American Medical Association organized the Department of Investigation. They found certain individuals claiming to have found cures for arthritis, cancer, diabetes, and other incurable diseases. They also discovered water or alcohol was the main content of these cures. Some people would pay up to \$800 for a so-called cure and the quack would pay only 50 cents to make it.

Quacks can be given credit for possessing one trait—ingenuity. Would the average person think of bottling water from the Pacific Ocean and selling it for \$20 a gallon? A man of the West Coast did it. A few years later someone else bottled water from the Atlantic Ocean, but the price had dropped considerable—to \$3.75 a gallon!

Dr. Field closed with a warning. Be careful when you get a medicine claiming to work miracles. The American Medical Association would be very happy to learn of new cures, but the day one is found to work, the world will learn of it—it will not be kept quiet. Dr. Field said the only way to rid ourselves of quacks is to not patronize their businesses.

Alumin News

The following are attending colleges and schools:

Norma Olesko, '62—Virginia Farral Beauty School

Pat Smith, '62—Virginia Farral Beauty School

Joel Spaunburg, '61—Michigan State

Terry Fortier, '61—University of Michigan

Bob Domolewicz, '61—Michigan State

Cheryl Ratliff, '61—Eastern

Jim McCanney, '61—Wayne

Vince Zager, '61—Wayne

Henry Orduco, '59—Wayne

Sam Di Prima, '59—Eastern

Judy Nixon, '59—Eastern (Judy married Sam Di Prima)

Tony Domolewicz, '59—University of Michigan

Mike Aznavorian, '62—University of Michigan

Fred Moreno, '62—University of Michigan

Brian Sheen, '62—University of Michigan

Other Lowrey graduates include: Judy Hughes, '62—works at Oakwood Hospital

Lowrey Students In Summer Roles

Seven Lowrey students were very busy this past summer working in amateur theater productions. Anne Marie Lowell, Gary Morton, Mike Meredith, Bob Scheer, John Sheron, Ken Shacey, and Sharyn Thrasher participated in productions of Teahouse of the August Moon, Trial by Jury, and the world premiere amateur production of The Music Man. They were produced by the Detroit Civic Center and sponsored by Detroit Parks and Recreation.

Gary, Anne Marie, and Ken are '62 graduates. Sharyn Thrasher, 12B8, shared the spotlight of Assistant manager for The Music Man with Anne Marie. In addition to acting in the Civic Center productions, Bob Scheer, 11B9, also appeared in the state fair production of Trial by Jury.

Out of the sixteen roles in Teahouse of the August Moon, nine were played by Lowrey students. Bob Howard, director of the Detroit Civic Center commented, "without the Lowrey kids, this production would have been canceled." The students received tryout dates from Mr. Meredith and Mr. Coedy during the previous school year.

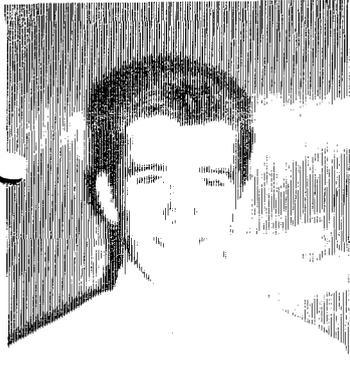

Meridith Wilson's The Music Man played to a capacity audience of ten thousand during its two night stand. Teahouse of the August Moon played to more than capacity of the tent, which houses five hundred. Lowrey is proud of their fine achievements.

Lowrey Students Honored

Mike Press, 12A 2, recently received a very nice surprise through a local newspaper. He learned he was one of the 11,000 semi-finalists named by the National Merit Scholarship Corporation. There were 224 seniors chosen from the Detroit Area. Presently Mike is in the midst of filling out forms and preparing for additional tests. About 97 percent of the semi-finalists will become finalists and 10 percent of the finalists will receive scholarships ranging from \$400 to \$6,000. The awards are given on the basis of merit, not financial need. On May 1, 1963, final results will be made public.

Latin Club Resumes

The Latin club elected officers at its first meeting on Thursday, September 27. They are: President, Sharon Wilkie; Vice President, Linda Said; Secretary, Diane Houle; and Treasurer, Ruth Watkins. The meetings are to be held on the second and fourth Thursdays of each month. Previously the club was open only to second year Latin Students but due to numerous conflicts in schedules, Mrs. Koehler, the club sponsor, decided to make the club open to more students.

Junior Spotlight

In this issue of the *Lowrey Light*, the Junior Spotlight is focused on Bob Ortega, 11B-7. Bob is from District 7. He is on a college prep course, and is majoring in English, science, and social studies. Through out high school, Bob has maintained a "B" average. After graduation, he plans to attend the University of Michigan, or a college outside of Michigan.

Last year, Bob played guard on the reserve football team, but he plays quarterback on the varsity this year.

Bob's outside interests include bowling, and making model hot rods.

When asked his opinion of Lowrey, he replied, "It's a lot different than Best, but it'll be a lot better when everything is fixed up."

One embarrassing incident happened to Bob since he has been attending Lowrey. "One time I was walking upstairs and I dropped three of my books. The papers scattered all over the stairs, and everybody trampled all over them. By the time I got them all gathered up again, the bell had rung and I was late for class."

Dance Successful

The Kick-Off Dance was held successfully Friday, September 21, in the Lowrey Ballroom. Approximately 200 students attended the first dance of the year.

Harry Sawicki, student council executive board treasurer, said that approximately \$140 or better will be profited on the proceeds from the dance.

The "new-look" in the Lowrey Ballroom was completed in time for the dance and apparently had a great affect on the students for it was apparent all had a good time.

Inquiring Reporter

In this issue of the *Lowrey Light*, the question, "What is your pet peeve?", was asked. Here are several replies:

Sharon Hall, 10B-4, "People who don't yell at football games."

Sue Tarch, 12B-7, "People who click their pens."

Anita Merkle, 11B-6, "Someone telling a secret in front of me."

Sandy Butler, 11B-2, "Guys with long, dirty fingernails."

Diana Villet, 12B-8, "Someone chewing on a popsicle stick."

Nancy Moody, 10B-7, "People who save seats on the bus."

Steve Anderson, 11B-1, "To lose money at cards."

Anita Shakarian, 11B-9, "People who brag."

Cynthis Macie, 12B-5, "Guys who think they're it."

Larry Kubicz, 10B-5, "Green blackboards with yellow chalk."

Garry Cook, 10B-2, "People who think they know everything."

Juliet Mallie, 12B-5, "To have your boyfriend go out with the guys without telling you."

Future Nurses

In talking to the President of the F.N.C., Arleen Lukaschewski, we find that the Future Nurses' Club plans many exciting activities this school year. On their first meeting, Tuesday, September 18th, they introduced the new officers, previewed the upcoming planned activities and enjoyed a Punch Party.

This year the club will discuss many careers in medicine in addition to nursing. Members of the club hope to make a talking story book on tape for the blind.

They also plan to have guest speakers informing them about different schooling programs in the career of medicine. Examples are the two, three, and four year programs for registered nurses and the one year programs for practical nursing. There will be films about medical workers and the jobs they do.

If you are interested in medicine or health, why not join the club and enjoy yourself while you learn more about the different fields of medicine.

Miss MacKenzie, Lowrey librarian, is shown visiting the Luxor Temple, a center for archeological excavations such as King Tut's Tomb.

Librarian Visits East

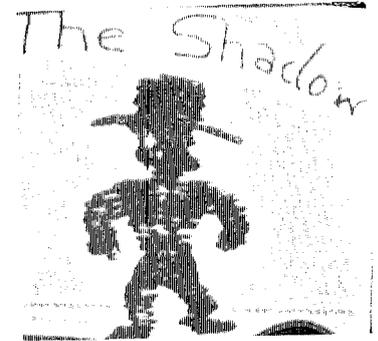

Miss MacKenzie and a friend toured the Middle East this past summer visiting the countries of Egypt, Lebanon, Jordan, Israeli, Syria, Turkey, and Greece. They also took a week's cruise around the Greek Islands including Crete and Rhodes. Part of the time they toured with a group of ten other people, other times they went by themselves.

Miss MacKenzie visited Africa and she said that the temperature was always over 100 degrees and the arid desert produced a very dry heat.

She found the bazaars of Turkey and Damaskus, Syria with their small streets and many small shops as different as can be.

Outside theaters including the Acropolis, were also visited by our librarian, who pointed out that the performances are given in three languages, English, German, and French.

For Miss MacKenzie sailing down the Nile River past Luxor, Egypt, in a felucca was one of the highlights of the trip. The navigator made mint tea on a little stove for the passengers.

In this issue the Shadow is following a senior girl. See if you can guess who she is by the description below.

First hour—She is in Mr. Mac-Namara's class learning to draw straight lines.

Second hour—She is eating part of her lunch in Chorus (that's when Mr. Coedy isn't looking).

Third hour—She is in refresher math trying to remember her multiplication tables.

Fourth hour—She is in English thinking of an excuse to see the nurse.

Fifth hour—She's bothering K. L. on hall duty.

Sixth hour—She is batting her brains out in Mr. Betzing's class.

Seventh hour—She's exercising her fingers in office machines.

Teen Verse

I tell you true,
I'm through with guys,
'cause all they do
Is tell you lies.
They break your heart,
They make you cry,
They make you want
To go and die.
The way they treat
You is a sin.
Wow! Dig that guy
Who just walked in!

Name Nonsense

Chris not Campbell,
Chris not DeIMonte,
Chris Hines.
Ed not cry,
Ed. not yell.
Ed Sass.
Leroy not Irish,
Leroy not German,
Leroy Scott.

Homecoming Nears

Lowrey's traditional Homecoming Dance will be held on October 19, from 8-11, in the Lowrey ballroom. Couples will dance to the Kit Redding Orchestra under the theme of "Moonlight and Roses."

In the afternoon preceeding the dance, Lowrey will compete against Ecorse in our annual homecoming game. Halftime ceremonies will feature the queen and her court in all their beauty and splendor, as they circle the football field in gala decorated cars. The Queen's court will consist of three seniors, two juniors, and one sophomore.

These events have proved successful throughout past years, both by alumni and students. Plan now to attend!

Congratulations! Lowrey To Join New League

The Lowrey Light would like to congratulate the student body on the good participation and school spirit displayed at the last three football games. Comments have been made by the cheerleaders, football team, and administration that the school spirit is definitely improving. The attendance has been good and the crowd has been courteous and attentive. These are qualities which are important and show good sportsmanship.

Although it is not realized by many, the football team is aware of the crowds enthusiasm and support. This makes them play their best when they are confident we are behind them all the way.

We hope to see this participation and school spirit continue throughout the season. Let's help our team win!

Close Score

It was close, but Lowrey hung on to take a one point victory over once beaten Haston 7-6, for their first victory here Friday September 21st.

Chris Stephen 11B, scored Lowrey's lone touchdown on a pass from Bob Ortega 11B. However, the difference in the game was the conversion attempts. Don Demayo 11B, scored what turned out to be the winning point as he ran from 2 yds out after Stephens had scored.

Jim Hdibal 12B, Mike Alanskas 12A, Jerry Jursec 11B, and David Bogataj 11B, played a good game.

Thespians Start Year

Lowrey Thespians have started their 1963 year with great enthusiasm and many new plans. The club will have regular meetings every other Wednesday as well as producing the play. At these various meetings the group will have discussions, act out skits, and receive some acting direction.

The first play production will be presented the second week in November. Two performances will be given at Best Junior High School and tentative plans for a performance at Fairlane are being made. The club is also planning to present to Wayne State University a one act play as well as a play geared for children. Tentative plans to attend a dramatic workshop at Eastern University have been made. At such a workshop the group would work with college students in an attempt to broaden their views on acting and learn more dramatics.

At the last meeting, committees for the production of the first play, "Star Dust," were set up. After try-outs, the committees will begin work and practice under the direction of the club sponsor, Mr. Meredith.

The club's new officers are, President, Marty Stiles, 12B; Vice-President, Bob Scherer, 11B; Secretary, Anita Merkle, 11B.

Next year Lowrey Senior High will be playing in a new league. This is the Tri River league. This new league was formed in 1961 and it includes: Riverside, Southgate, Cherry Hill, Haston, North Farmington, and Birmingham Groves.

The last two teams mentioned North Farmington and Birmingham Groves, are leaving at the end of the 62-63 season. The 63-64 season will have two new teams with Lowrey being one of them and the other is still not determined.

The TVL is approximately 30 years old and throughout 13 of these years Lowrey has played an active part in its sports program. Mr. McBride, our athletic director, when asked about the team in the Tri River league commented, "The teams in the TRL are more comparable to us." He also stated when asked about how we will fit into the new league, "It is a much better league for us to be in."

Band Will Play

On October 15 the Lowrey High School Concert Band will play for the United Foundation Drive which will be held at Michigan and Schaefer at 7:30 in the evening. On October 19 the band again takes the honor of ushering in the Homecoming Queen and her court on the football field. These activities alone will keep the band very busy.

The newly elected officers are as follows:

President, Steve Kornblum, 12B4; Vice-President, Cathie Gangski, 12B3; Secretary, Joe Lutheran, 12A2; Treasurer, Virginia Smith, 11B10; Student Director, Feryle Waldenmyer, 12B8, and Assistant Director, Lee Campbell, 11B1.

Reserves Win

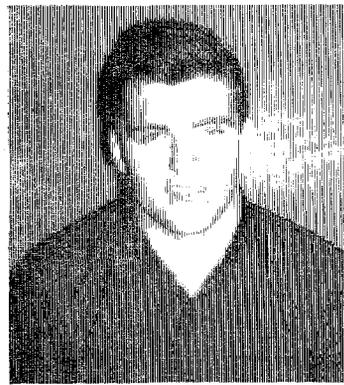

Lowrey's reserve football team gained its second victory in a row by mastering Willow Run 40-0, on Thursday, September 27.

Three touchdowns were scored on runs by fullback Phil Griglio, 10B4, from the 35, from the 8, and from the 2 yard line.

Quarterback Doug Cole, 10B-2, scored 2 touchdowns, one a run from the 50 yard line, the other a diving plunge from the one.

Slotback Frank Perri, 10B8, intercepted a pass then ran 75 yards for a touchdown.

In addition to these boys, Herman Beaver, 10B-1, Bob Zickafoose, 10B-10, Paul Ray, 10B-8, Charles Chircop, 10B-2, Tim Malzak, 10B-6, and Dick Titus, 10B-10 played an excellent game. Lowrey used 34 players in the game and still held Willow Run to only two first downs during the game.

Sports Spotlight

Jim Hribal, 12B-4, this year's varsity football team captain, is the subject of this issue's Senior Sports Spotlight.

Before coming to Lowrey, he played football for Clara B. Ford junior high and was considered as one of the best players. He has played on the Lowrey Varsity football team since his sophomore year coming to Lowrey and last year came up with All-League and All-City honors.

Jim is on a college prep course and his majors are English, Math, Science, and History.

He gave us his opinion of our school spirit:

"It has improved quite a bit from last year, but it could be a heck of a lot better."

Lowrey Falls

Willow Run High rolled up 33 points against our Bears to take a 33-0 victory here on Friday, September 28.

The game was slowed up a bit by being played in a slight rain. However, it didn't seem to bother Willow Run as they continuously moved down the field against the Bears defense.

The score was 27-0 at the end of the first half.

Jim Hribal, 12B, played an outstanding game on defense.

Louder Cheers Coming Up

At the next home football game the cheerleaders will be using some of their new equipment. The cheerleaders, as an organization, bought red and gray cheerleading pom poms, and Mr. Romanow purchased for the girls eight megaphones. These megaphones will be painted red and gray. The girls are very happy to cheer more effectively.

GAA

About 45 girls turned out for the Archery Club which is sponsored by the G.A.A. There was such a crowd that Miss Stephens and Mrs. McGill, who are the sponsors of the club, had to split the girls up into two groups. Some arching on Mondays and the rest on Tuesday, with 5 or 6 weeks left to start sharpening up their aim for their tournament in which each girl gets to compete.

Reserves Blank Haston 27-0

Lowrey's reserve football team blanked Haston 27-0 for its first victory of the year on September 20th.

Although it was only their second game, it was quite a comeback from their first game which they lost 6-0 to Garden City.

Quarterback Doug Cole, 10B-2, ran for two touchdowns and passed for two.

Paul Ray, 10B-8, caught a 40 yard pass thrown by Cole then ran ten yards for a touchdown.

In addition to the four touchdowns scored, Lowrey had three more called back for penalties.

Haston only made two first downs during the game.

Phil Griglio, 10B-4, Herman Beaver, 10B-1, and Bob Zickafoose, 10B-1, played a good defensive game.

Coach Gretsner stated that the team looked a lot sharper than the Garden City game.

Sports Trophies On Display

During the last 13 years the Lowrey Senior High has acquired many sports trophies. These trophies are on display in the showcase near the Home Ec. room.

There are 13 trophies in all and they range from 1949-1959. The trophies according to dates are:

TVC Basketball Champs.....	1949
Class B Basketball	1952
Girls Bowling	1953
Tennis	1956
Allen Park medley relay	1957
Allen Park mile relay	1957
Swimming	1957
Tennis	1957
Baseball	1957
Basketball	1957
Tennis	1958
Baseball	1959

While the going has been tough lately it is believed that Lowrey will do better next year, when the Bears join a new league. Keep trying boys and we'll add to the trophies on hand.
